FLAME RETARDANT
CATALOGUE 2024

Avoid the spread of fire and protect your business by offering guests, customers and staff a stunning yet safe environment with inherently fire retardant foliage.

With an incredibly realistic appearance, high-quality materials and inherently fire retardant properties guaranteed for life, FR foliage has long been the number one choice for architects, landscapers and designers around the world looking to add a special touch to their projects.

FR products are manufactured with fire-resistant materials and chemicals, making them 100% fire retardant right down to the core.

FR foliage has been rigorously tested to ensure it meets different fire-safety standards around the world. An impressive collection of official worldwide FR certificates are all available on request.

The image shows three flame retardant palm plants in decorative pots. The plants are lush green with feathery fronds. They are arranged in a row on a light-colored wooden floor against a plain white wall. The plant on the left is in a dark brown, textured pot. The middle plant is in a dark brown, textured pot sitting on a light-colored, rectangular concrete block. The plant on the right is in a white, textured pot. To the right of the plants, a white side table holds a blue glass bottle. The text 'FLAME RETARDANT PALMS' is overlaid on the left side of the image in a bold, dark grey font.
